YOUR VIEWS MATTER

Have you faced problems finding parking in West Bridgford? We're interested in hearing from residents, workers or frequent visitors to the town. Are there any changes to on-street parking that could make your experience better?

The survey will run from Monday 4 December 2023 to Monday 22 January 2024

Why is this happening?

West Bridgford has a popular and diverse retail centre and is close to most of the county's major sporting destinations.

Consequently, it attracts millions of visitors annually many of whom visit by car. We know from feedback and detailed studies that parking availability is regularly raised as an issue.

Good access by all types of transport is crucial to support a town centre and for many people using a car is their main choice. To protect the town's future and make sure everyone can access it, the county council wants to know about your parking experiences.

What can be done?

Short-stay parking is very important for local businesses as it ensures a turnover of visitors many of whom only need to stop for less than an hour to access services.

West Bridgford has a mix of restrictions, and some areas are completely unrestricted so there are possible opportunities to increase the available space. This could reduce congestion from visitors circling and looking for spaces which should improve air quality.

How can I have my say?

Your experiences with finding parking around West Bridgford are important and they will

help us decide if we should make changes to the restrictions in future. We've put together a questionnaire with some ideas on how to create more on-street parking spaces.

Right now, we really want to know what people think, especially those who might be affected. The council will carefully listen to all the responses before making any decisions.
